- Bootstrap
- Tailwind CSS

EXPERIENCE

FrontEnd Development Trainee - Chennai **Feb 2023 - Present**

- Proficient in HTML, CSS, and JavaScript fundamentals with a focus on responsive web design.
- Experienced with popular JavaScript frameworks like React and knowledgeable about component-based development.
- Familiar with CSS preprocessors, build tools, and adept at using browser developer tools for debugging and profiling.
- Skilled in version control using Git and comfortable collaborating with others on projects.

Flipkart Clone Project:

- Engineered a dynamic frontend experience for a Flipkart Clone project, harnessing the power of React, Redux for state management, and Bootstrap to deliver a interface that enhances user engagement.
- Integrated Firebase for user login and Razorpay APIs in Test mode to enhance the functionality
